

Indoor Air Quality Annual Notification

The District has an Indoor Air Quality (IAQ) Management Plan. The management plan outlines specific policies and procedures that will be used in the district to address indoor air quality issues. IEA, the District's health and safety consultant, completes annual IAQ assessments within the school to ensure proper air quality.

If you have any questions concerning IAQ, or would like to use the EPA Tools for Schools checklists, please contact the district health and safety coordinator at 763.682.8786.
